

**REGISTER OF NEW NATIONAL STANDARDIZATION INITIATIVES  
NOTIFIED UNDER SECTORS IN THE SCOPE OF CENELEC**

**February 2023**

**Issued on : March 23, 2023**

## Information Procedure on Standards

Notifications registered at CCMC during February 2023

Sector 08\_ELTEC : Electrotechnology

Register issued on : March 23, 2023

## Sector 08LVIM: Low Voltage electrical installations material

---

**Sector :** 08LVIM Registration Date : 2023-02-07  
**Organization :** UNMS SR  
**Country :** Slovakia  
**Project ID :** 33300623/0001 Project Established  
**ICS :**  
**National Ref :**  
**Title :** Verification and check of household and similar electrical appliances and hand-held electrical tools during their use  
**Scope :** STN 33 1600: 1996 (for verification and check of electrical hand-held tools during their use) is obsolete. Its requirements are derived from the out-of-date methods of measuring which are not applicable to the present-day tools. It is necessary to bring this standard up to the today's level and to merge it with the standard STN 33 1610: 2002 (for verification and check of household and similar electrical appliances during their use) into one single document. The revision of both standards aims to prepare and publish one national standard for verification and check of electrical appliances and hand-held electrical tools during their use aligned with European standards EN 50699:2020 and EN 50678:2020.  
**Relatedness :**  
**National :** New
