Sector 01\_FOODA : Food and agriculture

Register issued on : 2023-03-10

---

**Sector 01AGRS: Agricultural, forestry, horticultural, aquacultural and apicultural services**

---

**Sector :** 01AGRS **Registration Date :** 2023-01-21  
**Organization :** SN  
**Country :** Norway  
**Project ID :** NOT23001/0002 **Project**  
**Established**  
**ICS :** 65.150  
**National Ref :** NS 9414  
**Title :** Automatic lice counting in marine finfish farms  
**Scope :** The committee will prepare a new Norwegian Standard for automatic lice counting in Norwegian finfish farms. The work aims to develop a National Standard for the qualification of new technology used to count salmon lice in Norwegian finfish farms. The standard shall contribute to providing the best possible counting result that reflects the current number of lice in the facility, safeguards fish welfare and sustainable production - as well as meeting demands made by public authorities in Norway.

Title : Windows. Installation on site

Scope : The purpose of this standard is to define the systems and technical conditions to be followed for the installation of windows with or without compact roller shutter casing and external pedestrian doors in the opening of the building, with the dual purpose of providing security for the user and the durability of their performance over time.

This standard is applicable to windows (including balcony windows and roof windows) with or without compact roller shutter box and external pedestrian doors, whatever the material they are made of, as defined in the UNE EN 12519 Standard, regardless of the type of building work and situation of the window with respect to the opening on which it is to be fixed. It is applicable to both new construction and renovation of windows.

From this point on, and for this standard, "window" is understood as the whole of the enclosure consisting of a window or door, as a finished product, including, or not, the roller shutter box.

This standard does not apply to:

- windows and doors subject to smoke control and fire resistance regulations;
- skylights;
- skylights;
- windows and external pedestrian doors in escape routes;
- structural type windows (glass glued to frame).
- windows with external mini or tunnel type box, for the shutter box section
- site-built boxes

**Title :** Stainless steel flexible hoses with connections for conduction of gaseous fuels up to a pressure of 0,4 bar with a maximal length of 2 m.  
**Scope :** This standard aims to set the dimensions, technic and operating specifications, as well as testing to be met by stainless steel tubing with stainless steel fittings for joining reception facilities for fixed appliances that use gas as fuel.  
The flexible tubes with stainless steel threaded connections are applicable for joining fixed individual receiving installations, of fixed or immobilized gas appliances, which use as fuel gases of the 2nd or 3rd families defined in the UNE-EN 437 Standard, supplied to pressures not exceeding 0.4 bar.

## Sector 13FIRF: Fire-fight equipment

---

**Sector :** 13FIRF **Registration Date :** 2023-01-30  
**Organization :** UNI  
**Country :** Italy  
**Project ID :** 01611992/0001 **Project Established**  
**ICS :** 13.220.50  
**National Ref :** UNI1611992  
**Title :** Fire proofing systems - Inspection modes for the installation - Part 3: Insulating sprayed systems  
**Scope :** The standard establishes the methods for checking the application of Spray- Applied Fireproofing Materials for verifying their compliance with the design specifications, based on the element to be protected and the required degree of fire resistance.

**Relatedness :**

National : REV/AMD UNI 10898-3:2007

---

---

**Sector :** 13FIRF **Registration Date :** 2023-01-26  
**Organization :** BSI **Draft Issue Date :** 2022-11-30  
**Country :** United Kingdom **Latest Date for Comments :** 2023-01-30  
**Project ID :** 02200920/0002 **Draft for public enquiry**  
**ICS :**  
**National Ref :** DPCBS 7273-4+A2  
**Title :** BS 7273-4+A2. Code of practice for the operation of fire protection measures. Actuation of release mechanisms for doors. Amendment

**Relatedness :**
